

TENOR

PLATINUM SERIES
VINTAGE

Top of the line PLATINUM SERIES TENOR VINTAGE was designed with the intent to reproduce a timbre close to Selmer's Balanced Action and Mark VI, but with a better intonation. The result is a warm powerful sound, very rich in harmonics, but easy and immediate in the high register.

As part of the Platinum Series, this tenor is customizable on request in every aspect and the set-up is always carefully tailored to the specific preferences of each musician.

This professional line is made in Italy by Luca Cardinali and is the choice of many international top artists.
